POSITION: SECURITY ANALYST

Freedom Consulting LLC is committed to helping corporate and government entities protect their most valuable assets. We are a US based security consultancy that specializes in physical security, penetration testing, intelligence-based advisory services and advanced security training programs. To ensure the quality of these services, Freedom Consulting LLC relies on a staff of highly trained security consultants who share an unwavering commitment to satisfying clients' needs.

We are looking for experienced security analyst to join our team. The contractor will conduct open source intelligence (OSINT) searches to gather security-based details about organizations, areas or locations. The contractor shall also provide assessments which help develop security policies, prepare due diligence reports and ensure security policies are current.

RESPONSIBILITIES

- Operate in a professional, business-centered environment where customer service, confidentially, and integrity are held to a high standard
- Conduct collection and exploitation of Publicly Available Information (PAI) via use of OSINT tools
- Collect, organize and analyze information from multiple intelligence and operational sources related to security research for Clients
- Researching, reviewing, evaluating, and integrating open source data to produce open source threat assessments
- Producing daily, weekly, and monthly intelligence summaries as directed
- Install security measures and operate software to protect systems and information infrastructure, including firewall and data encryption programs
- Coordinate and collaborate with other intelligence disciplines to produce finished intelligence products, including threat assessments
- Assess and provide formal recommendations on emerging OSINT methodologies and tools
- Provide input to curriculum development for OSINT training requirements

REQUIRED QUALIFICATIONS

- Undergraduate Degree from an accredited college or university in Counterintelligence, Criminal Justice, Information Security or Computer Science will be accepted in lieu of extensive experience
- Demonstrated experience in a field related to OSINT research, collection management, analysis or the exploitation of PAI or social media
- Strong written and oral communication skills
- Proficient in iOS, macOS, PC operating systems on stationary and mobile devices
- Proficient in Microsoft Office programs to include Microsoft Excel, Microsoft PowerPoint and Microsoft Word
- Ability to perform periodic travel both domestically and internationally
- Strong critical thinking skills with the ability to integrate security architecture and protocols
- Excellent attention to detail skills

DESIRED KNOWLEDGE / SKILLS / ABILITIES

- All Source Intelligence
- Open Source Intelligence (OSINT)
- Human Intelligence (HUMINT)
- Imagery Intelligence (IMINT)
- Experience with threat environments and overseas security operations
- Experience managing intelligence teams
- Minimum 10 years of either military or law enforcement experience with demonstrated intelligence experience
