

# SECURITY SERVICES

Freedom Consulting LLC is committed to assessing your corporate risks, threats, and vulnerabilities to help protect your most valuable assets. Our proactive approach involves thorough planning and continuous risk analysis. We leverage our extensive experience and partnerships to deliver effective security and protective solutions.

Freedom Consulting is an industry leader in providing end-to-end security solutions while maintaining strict confidentiality. This includes ensuring the highest caliber of specialized training and security offerings to our clients.

## Our Security Services Include:

### Security Assessments

Knowing your risks, threats, and vulnerabilities is the foundation to developing an impactful security program.

### Facility Penetration Evaluations

Freedom Consulting has the ability to provide penetration testing—a tool designed to simulate a threat actor gaining access to client facilities and/or sites.

### Secure Travel Risk Assessments

Our team of experts are committed to ensuring you are secure and supported during your next trip.

### Security Policy Design & Review

Well-organized policies and clearly defined procedures strengthen an organization's position against an uncertain future.

### Realistic Incident Evaluations

A unified and coordinated effort takes practice. The ability to measure a client's emergency response preparedness is critical for policy analysis.

### Technical Surveillance Countermeasures (TSCM)

TSCM is a highly technical service that detects the presence of various eavesdropping devices such as hidden cameras and microphones.
