

# SECURITY TRAINING

Internal security training is the cornerstone of an impactful security program. Our specialized courses meet these threats and ensure your employees are prepared for countless scenarios. Our foundational training provides real-world context on threat actors and the current operational risks that an organization may face from the ever-evolving threat landscape.

Each course is developed with mitigation techniques in mind and includes both internal and external spaces of the workplace. Our training is designed to protect a business's most valuable assets; its people.

## Our Training Services Include:

### Insider Threat Mitigation

Every organization faces the possibility of an insider threat. Freedom Consulting can help you address these challenges.

### Preventing Workplace Violence

At Freedom Consulting, we educate your employees on the types of workplace violence and evaluate your safety preparedness.

### Travel Security Awareness

Freedom Consulting LLC security experts can offer strategies and training for a range of potential security threats your employees may encounter when traveling abroad.

### Incident & Crisis Management

Freedom Consulting's experts can assist your communications team in developing plans to influence the opinion and behavior of your targeted public audience.

### Physical Security: Basic Course

During this course, we provide the tools necessary to physically secure and protect your organizations most important assets.

### Physical Security: Advanced Course

Once you have finalized the Basic Course, we focus on implementing your newly acquired skills by applying the principles and fundamentals to a practical assessment.
